- Letter Writing
 - Send Borrowers customized letters – “Request of Property Damage”
- Insurance Compliance
 - View active Coverages across one or more affected Properties
 - Holistic view of disaster impact

The background is a solid orange color. In the center is a realistic image of a lightbulb. Surrounding the lightbulb are several hand-drawn, chalk-like elements: four large, irregular circles and four short, diagonal line segments, all in a lighter shade of orange. The text "Let's see it in action" is written in white, bold, sans-serif font across the middle of the image, partially overlapping the lightbulb.

Let's see it in action

“Should I be using the FEMA widget?”

- ❑ I service properties in areas prone to natural disasters, such as flooding, hurricanes, etc.
- ❑ Planning to implement Release 20
